

North Dakota FAASTeam presents:

Flight Review: CFI Responsibilities and Pilot Performance

This is a question/answer period with Jay Flowers, FAASTeam Program Manager (Operations) Fargo FSDO regarding the 61.56 Flight Review. Regulation and legal interpretations, CFI responsibilities, PTS Areas of Operations, pilot performance, and areas needing improvement.

Over the past year there have been numerous pilot accident and incidents that suggest we are missing critical elements in our training and flight review processes. This event is part one of a three part process to shift the training and reviewing process to a data supported training plan of action which will target those failed areas. Part two, to be presented at a later date, will be for all airman. Topics will include landings, take-offs, advanced preflight, performance, and ADM including scenario based training.

Part three will conclude with the airman in part two and the CFI's in part one getting together to apply what they have learned. The final outcome will be a working knowledge of the WINGS program, the necessary topics and tasks completed and a Flight Review in your logbook (task completion at the airman's certificate level, minimum standards by PTS is required).

Participating CFI's will receive credit for participating in a safety program which will earn
